

At our office, we have one simple goal. We want to change your life by rendering the highest quality chiropractic care. We do this by specific scientific chiropractic adjustments designed to remove vertebral subluxations affecting your nervous system and interfering with your God given innate ability to be healthy. To accomplish this goal, we must work together. We believe good Chiropractic care requires a partnership between you and us. Please read over our clinic's procedures to understand how our clinic functions, so that you can be an active participant in your care. If you have any questions, please feel free to ask us.

To initiate care at our facility, there are **two required visits**, your Initial Examination visit and your Principled Doctor's Report. If you cannot attend either of these two subsequent visits, the negative impact on your care will be profound, and we cannot in good conscience begin your care.

1. **Your Initial Examination:** In your first visit, you will have an initial consultation with the doctor. This is usually followed by a chiropractic examination including nerve systems scans and spinal x-rays if warranted and appropriate.
2. **Your Principled Doctor's Report (X-ray Report):** This will be your longest visit at our clinic lasting approximately **90 minutes**. It will cover a large amount of information and include a detailed personalized individual report of findings with recommendations for your care. Any x-rays taken will be individually reviewed at this time. *We highly recommend that spouses and adult family members attend this visit with you so that they can hear first-hand about chiropractic.* We love children, however, young children should not attend this visit as the material may be too advanced, and children will find it difficult to stay attentive for that amount of time without creating a distraction. Due to the time needed for the Principled Doctor's Report, we set aside special hours and days for this visit. Check with our receptionist for the available times.

I consent to initiate care in the form of an examination, nerve scans, and, if needed, x-rays at Braille Chiropractic. I understand that I am under no obligation to either receive any further care unless I agree to such care at my Principled Doctor's Report.
